SUMMARY

I Recently graduated with a [BCA] in [computer applications] from [SNMV]. Strong foundational knowledge in [python]. Eager to apply academic knowledge and skills in a practical, real-world environment. Proven ability to work collaboratively in team settings and independently. Seeking an entry-level position in [data science] to leverage my skills and contribute to company success.

EDUCATION

SNMV CAS, malumichampatti — BCA

June 2021- June 2024

I Graduated with a commendable academic achievement, earning a 70% overall mark in college.

PROJECTS

- **T20 Exploratory Data Analysis — using python**

Conducted T20 Exploratory Data Analysis project independently, uncovering insights into cricket match trends and player performance.

- **Business Case — using python and SQL**

Developed a business case data science project independently, demonstrating proficiency in data analysis and strategic insights.

- **Incost pred — using python and ML model**

Implemented cost prediction models in data science using techniques sourced from Kaggle.

- **T20 visualization — using Power BI**

Developed T20 cricket visualizations showcasing key insights and trends.

SKILLS

- Python programming
- SQL programming
- Machine Learning
- Power BI
- Git and Github
- MS Excel

ADDITIONAL

- **Artificial intelligence:** I Completed a 15-day AI certificate program from ICT Academy, gaining proficiency in artificial intelligence fundamentals and practical applications.
- **Data Science :** I Currently pursuing a comprehensive Data Science course at Datamites, focusing on advanced analytics, machine learning algorithms, and practical data-driven insights.
